

A great birthday Party !

There were lots of smiles, a lot of joy and pride among all community members, DREAM project staff and sponsors present while browsing through the shelves at the library.

There were very kind words from the people who have been supporting the library from the beginning and could not be there to witness the event.

There were very patient kids waiting for the short speeches to be over to share the cakes and refreshment.

The DREAM Center in the Callejon de la Loma, where the library is located, is definitively an oasis in the neighborhood. You could feel the creative energy and the dedication of its community to make little miracles happening, one by one, day after day.

Some early achievements

- During the first 10 days since the opening we have checked out more than 120 books.
- We have more than 50 patrons already registered. We will issue Library Card with their pictures and their own barcode in the next few weeks. We are expecting to have more than 200 patrons by September 2008.
- We received our first large shipment of books. It is starting to look good. A big thank you to all the patient donors that went online to pick up this amazingly attractive collection. We are updating our wish list almost daily :

A DAY TO REMEMBER
I was honored with a very special gift for my 50th birthday. From now on, on May 5th, all the DREAM Project Educational Center will celebrate a Reading Day Birthday. More books and cakes for years to come! I could not wish for something better. Again sincere thank you to the numerous (and growing numbers) of supporters of the public library.

MJ and staff receiving new books.
